**Preventive Care Recommendations**

**Pediatric Ages 0-10**

**Total Cholesterol Measurements**

---

**Figure 4.1. Assessment and Follow-up of Total Cholesterol Measurements**

- **Acceptable blood cholesterol**
  - <170 mg/dL

- **Borderline blood cholesterol**
  - 170-199 mg/dL
  - Repeat cholesterol and average with previous measurement

- **High blood cholesterol**
  - ≥200 mg/dL

- **Repeat cholesterol measurement within 5 years**
  - Provide education on recommended eating pattern and risk factor reduction

- **<170 mg/dL**

- **≥170 mg/dL**
  - Do lipoprotein analysis
