If you know you have pre-diabetes, you’re in luck. You’re being given a chance to take actions that can prevent diabetes. In the Prediabetes 101 class, you’ll learn basic facts about diabetes and what you can do to prevent it. You don’t have to do it alone, though. There are 4 different ways we can help. You can choose which works best for you. After the class, we’ll ask you to complete the Next Step Selection Form.

**Usual care with your doctor**
- Visit your doctor every 3 to 6 months to:
  - Repeat blood glucose tests
  - Check your overall health

**Nutrition counseling**
- Individual counseling with a registered dietitian
  - Create a personalized eating plan
  - Receive personalized support

*SelectHealth covers 5 sessions per year with no co-pay. Many other plans also have this benefit.*

**The Weigh to Health® program**
- 12 sessions over a 6-month period, including:
  - 2 30-minute individual sessions with a registered dietitian
  - 9 or more 90-minute group classes, including help with behavior change

*The program is offered at no cost to SelectHealth patients who complete the class. The Weigh to Health® team will verify your insurance coverage.*
**Online Diabetes Prevention Class**

- **Online programs** are available at any time of day. Classes include:
  - 16 core classes delivered over 16 weeks, followed by monthly lessons for an additional 6 months
  - Online coaching, social support, digital bluetooth scale, and physical activity trackers

*Check with your insurance provider to see if your classes are covered.*
