Purpose:
Update local and regional primary care providers, members of the Department of Medicine, nurses and pharmacists involved in primary and medical subspecialty care in key advances in Internal Medicine and its subspecialties in the preceding year. Fulfill the educational objectives for the 2017 Urban Region Adult Clinical Learning Day. Update participants in key issues related to maintenance of certification, and key changes in federal health policies.

Target Audience:
Intermountain and community providers interested in internal medicine and its subspecialties and any regional primary care providers. All registered nurses and pharmacists who provide care in the setting of primary care, or Internal Medicine and its subspecialties.

Learning Objectives:
- Identify key advances in 2016-2017 in internal medicine and its subspecialties relevant to real-life clinical management of patients and integrate them into practice.
- Explain the changes in the current approach for maintenance of certification, especially under the American Board of Internal Medicine.
- Discuss key changes in federal healthcare legislation and policy, and understand the impact of these changes on the healthcare system and the medical professions.
- Explain quality improvement programs.
- Explain PCCP role in population health and moving from fee to service.
- Explain to patients the effects of HBP on other chronic diseases and their outcomes.
- Improve outcomes of other disease Significance of HBP as cause of morbidity and mortality.
- Locate current tools to implement/use when rapid cycling patients in their office.
- Integrate latest information on vaccines into their practices.
- Explain to patients and office staff about payment and coverage for vaccines.
- Use tools to screening for prediabetes.
- Engage patients in lifestyle changes and when to employ the role of medication.
- Identify community resources and goals around diabetes prevention.
- Participants will be able to identify strategies for best monitoring for progression of CKD.
- State latest goals of treatment.
- Describe where to access reporting for lipid management.
Disclosure Information

The Accreditation Council for Continuing Medical Education standards and guidelines require that individuals participating in CME activities are aware of commercial interests that could potentially affect the education presented. Intermountain Healthcare complies with these standards and guidelines and has a process whereby anyone who is in a position to control content of an educational activity has disclosed all relevant commercial interest relationships. Intermountain Healthcare has resolved all conflicts of interest prior to this activity. For information on this process, please contact the CME Department at 801-442-3930 or cme@imail.org.
